TITLE Suggested Resource and Instructional Materials for Occupational Orientation Classes, Grades 8-12.

INSTITUTION Illinois State Board of Vocational Education and Rehabilitation, Springfield. Vocational and Technical Education Div.

PUB DATE [73]

NOTE 18p.

EDRS PRICE MF-\$0.65 HC-\$3.29

DESCRIPTORS *Bibliographies; Booklists; *Career Education; Films; Filmstrips; *Instructional Materials; Library Collections; *Media Selection; Orientation; Orientation Materials; *Resource Guides; Resource Materials; Secondary Grades; Vocational Education

ABSTRACT

Sources of instructional materials suitable for occupational orientation classes are listed with addresses. The bibliography, divided between grades 8-9 and grades 10-12, covers books, pamphlets, filmstrips, films, kits, vocational interview tapes, recordings, and texts. Attention is called to articles for vocational guidance from "Changing Times" magazine. Introductory material discusses secondary school concerns, educational objectives in occupational information studies, and program content and procedures. (MS)

OCCUPATIONAL INFORMATION

It is hoped that this listing of materials may be of assistance to the instructor in classes wherever information concerning various occupations is a part of the curriculum.

In 1970's schools should be especially concerned with attitudes and habits which go with successful job performance. This cannot be achieved in one course or one year; rather, this should be an integral part of the emphasis of each course. It is with this in mind, that many of the sources listed may prove helpful not only in securing occupational information but also in assisting students to develop successful job performance attitudes and habits.

SECONDARY SCHOOL CONCERNS

Making academic and career decisions

Acquiring needed educational and vocational information

Developing attitudes and habits for successful job performance

The student develops awareness of his need for more specific implementation of his career purposes.

The student develops more specific plans for implementing his career purposes.

The student executes plans to qualify for entry level jobs by taking appropriate courses at the high school level, by on-the-job training, or by pursuing further training in college or post-secondary vocational education leading toward qualification for some specific occupation.

During the later adolescent years (high school 9-12) individuals are confronted with the necessity of making decisions which will permit them to make the transition from adolescence to adulthood. Consequently, individuals need skills and knowledge in assessing their capabilities, and specific information for decision making. More specifically:

- a. The need for opportunities for self-enhancement or humanization-----the implementation and articulation of self-image-----the socialization process.

- b. The need to recognize and enhance the contextual variables which impinge upon a decision making continuum.
- c. The need for actual support for the notion that change or indecision is not tantamount to failure.

Educational objectives in occupational information studies:

- a. To develop an awareness of individual differences and a knowledge of the positive relationships between individual characteristics and career development.
- b. To develop self-understanding and self-acceptance.
- c. To develop a positive self-image which will promote self-esteem motivation for achievement consistent with individual potential.
- d. To develop an awareness and understanding of the place of work in the lives of people.
- e. To develop an awareness and understanding of the increasing array of educational and career opportunities available.
- f. To develop ability to make decisions and plans based upon factual information, relationships, and inferences.
- g. To make educational and career decisions and plans appropriate to the individual's level of maturity and development.

PROGRAM CONTENT AND PROCEDURES

- a. Introduce in the curriculum appropriate experiences to provide career exploration, decision making, and reality testing for all students.
- b. Develop, distribute, and interpret educational media to facilitate career development experiences at all age levels.
- c. Expand and encourage the use of simulated and real work situations for career exploration and reality testing.
- d. To teach decision making skills through opportunities in actual participation in making educational, career, and social decisions appropriate to the individual's level of maturity.
- e. Create motivation through active participation and interactions of youth in relating educational experiences to career exploration and decisions---make education relevant to career-life situations.

- f. Develop and support a program of educational and job placement which will appropriately involve educational personnel in all placement actions.
- g. Incorporate as many laboratory type activities as feasible to enable the student to achieve visible and concrete success as opposed to abstract and delayed symbols of success. This procedure should be investigated as a means of improving the motivation of many "hard to reach" youth.

School administrators, counselors and teachers should be aware of the major objectives of this instruction:

- a. To provide experiences which will enable students to gain fuller awareness and appreciation of the occupational avenues, and the nature of the role played by workers in these occupations.
- b. To contribute to the student's testing of reality by showing the relationship between the requirements of these vocational and the education or training needed to meet them.
- c. To develop attitudes of respect for and appreciation of social usefulness of all types of work.

Pamphlets

- "All About You," Science Research Associates, Chicago.
- "Better Living Booklets," Science Research Associates, Chicago.
- Chapman, Elwood W. "Your Attitude is Showing," Science Research Associates, Chicago, 1964. "Your Attitude is Showing Workbook," University of Texas, Division of Extension, Distributive Education, Austin, Texas.

Pamphlets Cont'd.

"Charting Your Job Future," Science Research Associates, Chicago.

"Choosing Your Occupation," Oklahoma Employment Service.

"Discovering Your Real Interests," Science Research Associates, Chicago.

"Finding Out About Ourselves," Science Research Associates, Chicago.

"Guide to Preparing a Resume," New York Department of Labor.

"Guidelines for Completion of Resume," Oklahoma Employment Service.

"How to Get a Job," Science Research Associates, Chicago.

"Job Family Series," set of 17 booklets, Science Research Associates, Chicago

The Job Family Booklets illustrate how different jobs are related through common factors, satisfying similar interests, for instance, or requiring similar skills. By presenting jobs in their family groupings, the series broadens a student's range of occupational consideration. Booklets include highly informative and easy-to-grasp descriptions of real-life work situations, based largely on actual observation and interviews with workers. Most of the booklets describe a number of jobs at several educational levels.

5-964	Jobs in Agriculture	5-604	Jobs in Outdoor Work
5-965	Jobs in Art	5-967	Jobs in Performing Arts
5-962	Jobs in Building Construction Trades	5-978	Jobs in Professional Home Economics
5-607	Jobs in Clerical Work	5-968	Jobs in Psychology
5-613	Jobs in Electronic Data Processing	5-966	Jobs in Publishing
5-611	Jobs in Education	5-602	Jobs in Science
5-608	Jobs in Engineering	5-606	Jobs in Selling
5-963	Jobs in Health	5-612	Jobs in Social Work
5-961	Jobs in Mathematics	5-605	Jobs in Technical Work
5-603	Jobs in Mechanical Work	5-969	Jobs in Unusual Occupations

"Junior Series," set of 21 booklets, Science Research Associates, Chicago.

"Look at Your Future," American Institute of Men's and Boy's Wear, Inc., New York.

"Senior Series," set of 57 booklets, Science Research Associates, Chicago.

Sinick, Daniel. "Your Personality and Your Job," Science Research Associates, Chicago.

"What Employers Want," Science Research Associates, Chicago.

"What Testing Can Tell You About You," Science Research Associates, Chicago.

Pamphlets Cont'd.

How To Be A Better Student, Science Research Associates, Chicago.

Shows how to use study time most effectively: illustrations, charts, and tests help students evaluate present study habits.

My Educational Plans, Science Research Associates, Chicago.

This text enables the student to plan a realistic high school program, with the aid of fifteen thorough self-appraisal inventories.

Looking Toward High School, Science Research Associates, Chicago.

This informative activity text answers key questions about high school and encourages the student in planning his academic career.

Junior Guidance Series Booklets, Science Research Associates, Chicago.

Seven of the illustrated booklets in this series provide helpful direction for junior high students on getting along in school and planning for high school.

Planning My Future, Science Research Associates, Chicago.

This text contains self-administered tests and inventories that help guide the student in making preliminary educational as well as vocational decisions.

Filmstrips

Vocational Interview Tapes, Guidance Associates/Harcourt, Brace & World, Pleasantville, N.Y. Complete, inexpensive tape units can be operated by the individual student or used as a basis for group sessions. Designed to bring realistic information, objectivity and interest to your vocational program -- and to complement and update the many career information kits, books and brochures now in use, each Vocational Interview Tape: Opens with a fundamental job description based on current occupational counseling information. Explores -- through live interviews with "on the job" men and women -- the positive and negative, subjective and objective features of every job: Nature of the work, skills required, rate of advancement, gible (lip service) rewards and job satisfactions, personality types best suited to particular jobs.
